MEMORANDUM FOR: Deputy Director (Science & Technology)

THROUGH : Chief, Systems Analysis Staff

SUBJECT : Paper Prepared by [REDACTED]

STATOTHR

1. Attached is a paper that [REDACTED] handed me recently which he has prepared as a member of an unclassified [REDACTED] Study Group on this subject: "Open Space and Peace - The Requirements for Information and Systems."

2. [REDACTED] feels that this paper and the results of the [REDACTED] Study Group might have the makings of a mechanism to launch the U. S. campaign to make photographic reconnaissance acceptable, i. e., the resolution as he proposes it here is so low as not to worry the Soviets. Having once agreed upon the lady's profession, we can then dicker on the price.

3. Perhaps it would be useful to have the ONE and maybe the DD/1 comment on this and it is conceivable the Boss would be interested. After you have reviewed the paper, we could discuss it.
